

ARPEL Leadership Program

3rd. edition

Empowering the vision of the regional Leaders from the Oil & Gas Industry

Module 1

Global Factors and their Effect in the Upstream Sector in Latin America

Bucaramanga, Colombia

Technical visit to the Colombian Oil Institute (ECOPETROL)

May 30 – June 1, 2023

Module 2

The Role of Refining in the Scenario of the Energy Transition and Energy Security

Houston, USA

Technical visit to Deer Park Refinery

September 13 - 15, 2023

Module 3

Gas and Renewable Energies. Their Role as Energy Fuels in an Increasingly Decarbonized World

Monterrey, México

2024

Objectives

The participants will gain a broad vision of the industry's future and the skills required to solve the problems and to navigate successfully into the future.

Methodology

Presentations, case studies, simulations, and interactive sessions with O&G experts. Designed to prompt the dialogue and critical thinking.

The program is arranged in 3 100% face-to-face modules, consisting of 2 full days of highly interactive classroom activities and 1 day of technical visits to the emblematic facilities in the region.

Information on the Participants

Professionals of the oil & gas sector in Latin America, who report to the President or Vice President, and who have a high potential to fill hierarchical positions within their organizations.

Instructors of S&P Global Commodity Insights

of Refining and Marketing

"We received a structured, professional and excellently presented update on the O&G industry, as well as depth in key aspects of the business"

Ignacio Horvath
General Manager, ANCAP

59 participants from

"The most important thing is the network of contacts that we are forming among all the participants. This allows us to share our experiences in order to continue contributing to the development of our region."

Mauricio Martin
Vice President, Digital Technologies and
Transverse Solutions, YPF

13 countries

"I learned about parts of the industry that I have not had exposure to, such as downstream and midstream. I also connected with industry professionals and executives."

Patricio Whitney
Vice President, Digitalization & Integration, Americas Land, SLB
